

R130 Gliding Areas « JABRON - BUECH - DRÔME » Flight Document

To get information about the R130 activity :

Lun - Fri : St Auban Starter **122.15 Mhz**
 WE : Vinon Starter
 H24 *Marseille Info* **120.55Mhz**

If no answer, act as if the R130s are closed

To Fly in the R130 :

R130A « Jabron » (Lure) **FL195max**
 R130B « Buech », R130C « Drôme » : **FL155max**

- You must stay on 122,15 Mhz when flying inside the R130.
- Check your radio from time to time.
- Leave the area if the starter ask so, or at last 30 minutes before sunset.

If Salon R71 is already active : (Info from Starter or Salon APP)
 « Jabron » doesn't exist.

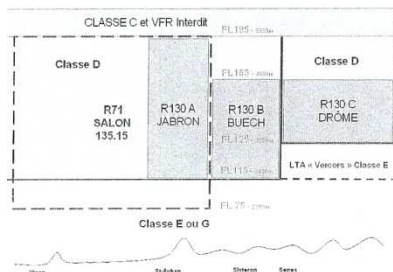

Contact Salon APP on 135.15Mhz. You need a clearance to fly above FL75.

If R71 gets active and you're flying in « Jabron » : (Info from Starter on 122,15).
 « Jabron » closes and becomes R71 « Buech », « Drôme » stay active

- Contact immediatly Salon APP 135.15
 « Salon, D-XX, glider at FLXX in « Jabron », I'd like to continue my flight on "8 axis"(or "Delta Sector") up to FLXX »
- From then, follow controlled flight rules in R71 .

- To leave R71, ask permission to leave the frequency and fly to « Buech » (or below FL75).

If R71 gets closed : fly quickly into "Jabron", "Buech" or drop below FL115

FL195 (5850m) is a maximum altitude in France for VFR flights. Never cross this level !
